September 17, 2020. Your 9-month-old's personality is blossoming – and separation anxiety may be as well. Your baby's language skills are progressing, and some of that babbling may sound more like a real conversation now. Memory is developing, too: Your little one can remember where objects are and imitate some of your movements.

9-Month-Old Baby: Milestones and Development | BabyCenter

Here are some milestones your nine-month-old baby may have hit or may be working on: Crawling. Nine months is the average age babies start to crawl, which means yours might have been doing it for a while, or you're still waiting for her to start. A 9-month-old not crawling is not typically a cause for concern.

Calendar with 12 months. Each month has either 28, 30, or 31 days during a common year, which has 365 days. During leap years, which occur nearly every 4 years, we add an extra (intercalary) day, Leap Day, on 29 February, making leap years 366 days long.. This is to keep our current calendar aligned with the solar year and astronomical seasons marked by equinoxes and solstices.
