This book was originally published in German, as Afrikanische Arzneipflanzen und Jagdgifte, in 1994. It concerns African hunting poisons, and covers plants used as ingredients of both poisons and drugs. There is a brief introduction which discusses poisoned weapons, poison preparation, plant sources and their active principles, and animal poisons.

The Cimba, also spelled Tjimba, are a remote, Herero-speaking hunter-gatherer people of the Kaokoveld desert in northwest Namibia and southwest Angola, in the mountain ranges bordering the Kunene River.They continue to use stone tools, and use Adenium boehmianum to poison their arrows.. Their Herero neighbors portray them as Herero who have lost their cattle and are therefore impoverished, but ...
