This article outlines some of the contributions of Erik Erikson's theory of psychosocial development in providing a developmental perspective on career behavior. While Erikson's theory has not been traditionally regarded as a "vocational developmental theory" the theory appears to be of importance in comprehending the developmental nature of vocational behavior.

### **Erikson's theory of psychosocial development and career ...**

For example, career development replaced vocational development as a rubric. Viewed objectively, career is the series of positions that an individual occupies from school through retirement. Viewed subjectively, career is the imposition of meaning on vocational behavior.

### **Vocational Psychology - Career Development - IResearchNet**

The high-order developmental construct of career adaptability (CA), which reflects a series of psychological aspects such as personality, motivation, readiness, strengths, behaviour, and attitudes, was designed in order to assess a person's readiness for successful mastery of career tasks and capacity to prepare and participate in work roles (Hartung, Porfeli, & Vondracek, 2008).

### **Influence of Parental Career Behavior on Vocational Upper ...**

Career construction theory, simply stated, holds that individuals build their careers by imposing meaning on vocational behavior. Personality types and developmental transitions deal with what a person has done and how they have done it.

### **Career Construction Theory in Career Development ...**

Career development theory is the study of career paths, success and behavior. It aims to explain why a person might be a good fit for a certain career and provide advice on how to attain a promising trajectory. It also focuses on identifying common career stages when education, guidance and other interventions are necessary.

### **Career Development Theory: Definition and Examples ...**

Vocational development is the process of developing and implementing a self-concept. As the self-concept becomes more realistic and stable, so does vocational choice and behavior. People choose occupations that permit them to express their self-concepts.

### **Overview of Career Development Theories**

It consists of a review of the relevance and utility of various career theories and models from mainstream vocational psychology to our understanding of the vocational behavior and career development of racial and

ethnic minorities -- African Americans, Hispanic Americans, Asian Americans, and American Indians.
