Tresavean - Explore Cornwall

Dolcoath mine (Cornish: Bal Dorkoth} was a copper and tin mine in Camborne, Cornwall, England, United Kingdom.Its name derives from the Cornish for 'Old Ground', and it was also affectionately known as The Queen of Cornish Mines.The site is north-west of Carn Brea.Dolcoath Road runs between the A3047 road and Chapel Hill. The site is south of this road.

Dolcoath mine - Wikipedia

Mining in Cornwall and Devon, in the southwest of England, began in the early Bronze Age, around 2150 BC, and ended with the closure of South Crofty tin mine in Cornwall in 1998. Tin, and later copper, were the most commonly extracted metals. Some tin mining continued long after the mining of other metals had become unprofitable.

The National Trust site Cornish Mines and Engines offers an insight into the mining heritage of Cornwall. The old engine houses are dramatic reminders of a time when the county was an important centre of tin, copper and china clay mining. The two giant beam engines on the site were used to pump water from a depth of 550 metres and to transport both men and ore between the mining levels and the surface.
