Cst Is The New Pap

CST is the new Pap. Pap smears have been replaced by a new Cervical Screening Test (CST). This change is good news for women. It will mean that they will have fewer tests but the new test will improve early detection of cervical cancer and save lives. If you have a cervix, have ever had sex with a man or a woman, and are 25 years or older it is recommended that you have a regular CST every 5 years.

new Pap - Family ...

Understanding the new Cervical Screening Test (CST) You may be aware that the Pap test has been replaced with a Human Papilloma Virus (HPV) test, or Cervical Screening Test. HPV testing is a more sensitive and specific way of preventing cervical cancer. That means, screening is much less likely to miss an early cancer of the cervix. Good news ladies!

Understanding the new Cervical Screening Test (CST)

The new cervical screening test procedure is similar to a Pap smear test. For both tests a doctor or nurse takes a sample of cells from the cervix. However, the Pap smear test used to look for abnormal cells in the cervix, while the cervical screening test looks for HPV infection.
