### Earth In The Balance Ecology

Gore's 'Earth in the Balance' is a clear warning given to the human race against it's relentless carbon fuelled rape of mother earth. The ecology issues haven't changed since A.G. wrote the book, they're just more urgent now. He writes of the dysfunctional human spirit that he traces back to the ideas of Rene Descartes an

In brave and unforgettable terms, Earth in the Balance probes the roots of the environmental crisis and offers a bold and forceful vision of a new, more sustainable path. Having provoked international discussion upon its original publication, it continues to confront us with profound challenges.

### Earth in the Balance: Ecology and the Human Spirit: Gore ...

The title to Vice President Al Gore's book — Earth in the Balance — is based on an illustration used by the White House for a 1990 conference on the environment. The illustration depicts a balance with the earth on one side and six gold bars on the other. Gore interprets the illustration to mean that the Bush administration was trying "to convince the world that the environment faces no serious dangers and that the wisdom of any effort to rescue it is outweighed by the cost" (p. 193).

### [Earth in the Balance: Ecology & the Human] | C-SPAN.org

Earth in the Balance: Ecology and the Human Spirit is a 1992 book written by Al Gore, published in June 1992, shortly before he was elected Vice President in the 1992 presidential election. Known by the short title Earth in the Balance, the book explains the world's ecological predicament and describes a range of policies to deal with the most pressing problems. It includes a proposed "Global Marshall Plan" to address current ecological issues. Written while his son was recovering from a serious

### (PDF) Earth in the Balance: Ecology and the Human Spirit ...

This sense of urgency is what motivated Gore to write Earth in the Balance. Part One of Earth in the Balance: Ecology and the Human Spirit is split up into eight chapters that review the major global threats; global warming, ozone depletion, air and water pollution, deforestation, depletion of top soil, waste disposal and loss of biodiversity. The goal of the introduction is to dispel a notion that environmental problems are not serious and those problems require little to no action to try ...
