Introduction. According to the cell theory of biology, all cells arise from pre-existing cells. In eukaryotes, this generally occurs by the process of mitotic cell division, which involves the separate but often coordinated processes of cytokinesis (division of the cytoplasm and organelles) and mitosis (division of the nucleus and associated DNA).

Chicago style is perhaps one of the more complex citation styles because it is really two systems under one name. The Notes/Bibliography system is used mainly in the humanities. The Author/Date style is typically used by those in the physical, natural, and social sciences. The main difference between the two systems the preference for notes (Notes/Bibliography) or parenthetical in-text ...
