Food and the City: Urban Agriculture and The New Food ...
Food and the City: Urban Agriculture and the New Food Revolution by Jennifer Cockrall-King When Edmonton-based food writer Jennifer Cockrall-King began to notice city-dwellers obsessing about growing food themselves instead of simply shopping at farmers' markets, she wondered whether it was just another passing fad or the beginning of a revolution.

Food and the City: Urban Agriculture and the New Food ...
Food insecurity in urban areas, particularly in developing countries, is a persistent yet poorly understood phenomenon. Food security interventions have primarily focused on ensuring food availability, a focus that has resulted in predominantly production-oriented responses that presuppose a rural challenge, overlooking urban food insecurity challenges.

Food and the City: Urban Scale Food System Governance ...
The book "Food in the City" by Jennifer Cockrall-King gives the reader a great summary and brings a unique perspective to how the world plans on feeding its people. Jennifer Cockrall-King takes the reader through 9 cities around the industrial world, giving the reader a history of previous urban agriculture efforts they have had and her own experience during her time in these cities.

Today, approximately 55 percent of the world's population live in urban areas, and is expected to increase to 68 percent by 2050. Rapid urbanization and climate-related shocks and stresses are impacting conventional food production and overall, food and nutrition security. Increased food prices resulting from disruptions in production and transport directly impact consumers, especially the most vulnerable groups in city regions that are highly dependent on affordable food.
