### Fossil Record Study Guide Answer

1. Fossils are usually found in sedimentary rock. Since most sedimentary rock is laid down by water, it follows that most fossils were laid down by water. 2. The vast majority of the fossil record is made up of hard - shelled creatures like clams. Most of the remaining fossils are of other water - dwelling creatures or insects.

### Module 7 Study Guide Answers - The Fossil Record - Quizlet

Study Guide The Fossil Record 1. Fossils are usually found in sedimentary rock. Since most sedimentary rock is laid down by water, it follows that most fossils were laid down by water. 2. The vast majority of the fossil record is made up of hard - shelled creatures like clams.
