How Social Movements Die: Repression and Demobilization of ...

The book argues that repression may not kill SMOs directly, but may interact with internal individual and organizational dynamics, and movements may demobilize due to their failure to adjust and adopt, thus causing internal factions and loss of trust among their membership (303). The book is divided into three parts.

How Social Movements Die: Repression and Demobilization of ...

Drawing on organizational, as well as individual-level, explanations, the author of this book argues that social movement death is the outgrowth of a co-evolutionary dynamic whereby challengers, influenced by their understanding of what states will do to oppose them, attempt to recruit, motivate, calm, and prepare constituents while governments attempt to hinder all of these processes at the same time.
