Synopsis. "The Book of Poisons" is a new edition of "Deadly Doses", which is an excellent reference for the writer interested in using poison as an element within a story. It is widely considered the best book in the "Howdunit" series, and is very reference orientated. Until "Deadly Doses" entered in the market in 1990, correct information about poisons (and their antidotes) were scattered among dusty old reference and medical books, many written in medicalese, and most of them difficult to ...
