What is Interaction Design? a) From your first impressions, write down what first comes to mind as to what is good and bad about the way the device work. Cell phone - 6300 From my first impressions, I find three good ways and three bad ways the device work. Good ways: 1. The size of the phone is very small, and it isn't heavy.

Tutorial 1 - Assignment - Human-Computer Interaction

Human-computer interaction (HCI) is a multidisciplinary field of study focusing on the design of computer technology and, in particular, the interaction between humans (the users) and computers. While initially concerned with computers, HCI has since expanded to cover almost all forms of information technology design.
