Accent. The number one most common problem is related to the electrical system (three problems). The second most common problem is related to the battery dead (one problem).

2007 Hyundai Accent Electrical System related problems

Hyundai customs exhaust systems are built to pull exhaust gases away from the engine, in this way eliminating the hindrance that prevents the engine from generating as much power as it is capable of. The stock exhaust restricts exhaust flow, only allowing a small amount of exhaust gases to make its way out of the engine at any given time.
