Indigenous Knowledge Systems (IKS) Notes - ToK

Local and indigenous knowledge refers to the understandings, skills and philosophies developed by societies with long histories of interaction with their natural surroundings. For rural and indigenous peoples, local knowledge informs decision-making about fundamental aspects of day-to-day life. This knowledge is integral to a cultural complex that also encompasses language, systems of classification, resource use practices, social interactions, ritual and spirituality.

Local and Indigenous Knowledge Systems (LINKS)

Indigenous knowledge systems. The TOK syllabus is currently shifting from the 2015 course (which students will study up to May 2021 in the Northern Hemisphere, and November 2021 in the Southern Hemisphere) to the 2022 course. Some aspects of the course have changed, some have stayed the same, and some have been removed, so we've shifted around a lot of content on our site.
