Applying by brush. Use the largest brush possible. Long flexible bristles are best for gloss paints. When applying by brush a good technique is the 'Criss-Cross' method. Paint is applied to the surface with a diagonal brushing action from the left and right ( 1 ). This is then spread further with horizontal strokes ( 2 ) before finally 'laying off' with light vertical strokes ( 3 ).

## Read PDF Interlux Marine Painting Guide

Infrequently used boats may want to use a modified epoxy paint that will have good antifouling properties when the boat is inactive. If you keep your boat in the water year round you are most likely a candidate for a high-copper-content modified epoxy paint that prevents growth by leaching biocides upon contact with water.
