The debt/asset ratio shows the proportion of a company's assets which are financed through debt. If the ratio is less than 0.5, most of the company's assets are financed through equity. If the ratio is greater than 0.5, most of the company's assets are financed through debt.

## **Debt Management Ratios | Boundless Finance**

Key Points  $\text{Fixed asset turnover} = \frac{\text{Net sales}}{\text{Average net fixed assets}}$ . The higher the ratio, the better, because a high ratio indicates the business has less money tied up in fixed assets for each unit of currency of sales revenue. A declining ratio may indicate that the business is over-invested in plant, equipment, or other fixed assets.
