Introduction The objective of these notes is to present the basic aspects of the theory of insurance, concentrating on the part of this theory related to life insurance. An understanding of the basic principles underlying this part of the subject will form a solid foundation for further study of the theory in a more general setting.

exam. MATH 3630 essentially covers the first half of these revised learning objectives.

## **MATH 3630 - Long-Term Actuarial Mathematics I | Fall 2019 ...**

Dictation takes a huge amount of time which can rather be used to discuss concepts in the classroom. It is very good for students and faculties and I would encourage all the faculties to upload their notes on LectureNotes so that they can spend more time explaining the concepts and students get notes from the website.
