Lunar Discovery Let The Space

Lunar Discovery: Let the Space Race Begin is the first book in Salvador Mercer's Discovery Series. In the first installment of the series an alien signal is discovered coming from the Moon. The United States of America, Russia, and China all rush to get to the alien device first. In both reading and writing, I prefer a character centric story.

Lunar Discovery: Let the Space Race Begin (Discovery ...

Simply put, Lunar Discovery is one of the best hard sci-fi novels I've read for years, and would make a very exciting movie. Hence, it scores a 9/10 rating from me. Well done to the author, and I do hope there will be further books in this series soon.

Lunar Discovery: Let the Space Race Begin (Discovery ...

What lies on the dark side of the moon could change the course of humanity forever. When a Chinese rover discovers an alien technology on the dark side of the moon, it is up to Richard 'Rock' Crandon and his NASA team of scientists and engineers to devise a way to return before the Chinese and Russians.

Lunar Discovery Review (Space Race Sci-Fi) - Sci-Fi & Scary

For example, NASA's Lunar Reconnaissance Orbiter has been circling the Moon and sending back measurements since 2009. The Moon is the only other planetary body that humans have visited. On July 20, 1969, NASA astronauts Neil Armstrong and Buzz Aldrin were the first people to set foot on the dusty surface of the Moon.

All About the Moon | NASA Space Place - NASA Science for Kids

The prototype lunar truck was developed at NASA's Johnson Space Center in Houston and tested at the center's lunar simulation area at Moses Lake, Wash., where the sand dunes can simulate the lunar environment. Let's look at the new pressurized rover concept.
