bridge camera with manual focus

Hi everyone, I'm a beginner. I'm looking for a bridge camera that has a manual focus ring. It's good that it has about 30x zoom and very small and very big apertures like f/2.8 - f/22 (I want to obtain a very shallow depth of field for photographing flowers and animals and a very broad depth of field to photograph landscapes).

Bridge camera with manual focus ring?: Beginners Questions ...

the reason bridge cameras cannot offer manual focus is because they do not have a viewer with sufficient resolution for the user to know if the lens is in focus or not. autofocus is the only option. SLRs can have manual focus because of the ground glass optical viewer. 0 2.

Which bridge cameras offer manual focus? | Yahoo Answers

On a bridge camera focusing is achieved via the "+" and "-" buttons on the rear of the body, or via a manual focus ring around the barrel of your zoom lens. Sometimes after your manual movement of the focus ring there might be a delay before the digital signal makes the change you made.

Bridge Camera Article - Nightskyhunter.com

However, bridge cameras don't have interchangeable lenses, so a dSLR camera case will have compartments for the lenses, while a bridge camera case won't. Most bridge cameras are digital and have manual controls for shutter speed (how quickly the image is captured), color balance, ISO sensitivity (the amount of graininess or 'noise' in the image) and focal size.

Best bridge cameras: From beginners to shooting wildlife ...

I'm obsessed with bridge cameras. Ofcourse the compromises are large; chromatic aberration, noise, etc. I just like manual focus and don't really enjoy giving it up. Electronic manual focus just doesn't react as smoothly as mechanical. So, do you know any bridge camera with a mechanical manual focus ring, and image stabilisation, and (I know I'm pushing it) but not too much trouble chromatic ...
