Each Cummins Generator has a model/spec number description, which is shown on the serial number tag attached to the generator. Here is a representation of the tag on Onan QG 4000. Note the highlighted letter code, in this case P, which denotes the specification type of the particular generator, which can then be referred to as spec P.

RV Generator Manuals | Cummins Inc.

Following the fuel stabilizer manufacturer's recommendations, treat the quantity of the fuel remaining in the fuel tank. Open the fuel valve, start and operate the engine for 30 minutes. Close the fuel valve and operate until the engine stops. This circulates treated fuel through lines and carburetor. The fuel can be drained or left in the tank.
