### Olympus Trip 35 Instruction Manual - Matt's Classic Cameras

The Trip 35 is a fully-automatic 35mm compact camera, manufactured by Olympus from 1967 to 1984, during which time over ten million units were sold. (This oft-quoted figure is likely to have included later plastic-bodied Olympus cameras with Trip branding, as the original Trip 35 had serial numbers going up to around 5,400,000.)

### Olympus Trip 35 | Camerapedia | Fandom

Hacking the Olympus Trip 35 to Work in Low Light The Olympus Trip 35 uses a selenium light meter

to adjust aperture and shutter speed automatically, locking the shutter release if there is insufficient light which would result in underexposure.

### **How to Shoot Night Photography with the Olympus Trip 35 ...**

The Olympus Trip 35 is sharper, since the 17-40mm got a little softer in the corner and the Olympus' sharpness stayed as high as it was in the center. These crops would print the entire image at 44 x 29" (110 x 70 cm) if you printed the entire image at this magnification. If you did print that big, would you be looking at prints this closely?

### **SCL Photography Guide: The Olympus Trip 35 Film Camera**

Olympus built this camera to document the daily adventures of the everyman, and the Trip does this beautifully. And for experienced shooters, the Trip 35 can be a great way to break free of shooter's block, or inject our shooting with something fun and carefree.

### **Olympus Trip 35 - Camera Review - Casual Photophile**

The Trip 35 was a point and shoot model with a 40mm f2.8 lens, solar-powered selenium light meter, and just two shutter speeds. In 'A' mode, the camera operated as a Program automatic, choosing either 1/40th sec or 1/200th sec. The camera could also sync with flash, and had a range of aperture settings, from f2.8 to f22.

### **Olympus Trip 35 - Wikipedia**

The Olympus Trip 35 has a 40mm f/2.8 lens. It has a great reputation but so what? Looking at a recent roll from each camera I'd have to give the sharpness award to the Trip 35, but to me, the main point is that it's sharp enough and it's f/2.8. This speed impacts on the light levels for shooting at 1/40s.
