On History - Eric Hobsbawm - Google Books

Hobsbawm was famously polymathic, his areas of interest stretching from micro-studies of highly specialized areas (some of his own invention) like "social banditry" and "primitive rebellion," through to the global history of capitalism, and the books which constitute the latter — perhaps his greatest achievement — are works of synthesis.

Eric Hobsbawm's Marxism Was Central to His Work as a Historian

Hobsbawm's lifelong allegiance to Communism inspired his pioneering work in social history, particularly the trilogy for which he is most famous—The Age of Revolution, The Age of Capital, and The Age of Empire—covering what he termed "the long nineteenth century" in Europe. Selling in the millions of copies, these held sway among generations of readers, some of whom went on to have prominent careers in politics and business.
