Peugeot 106 Torsion Bar Lowering

Pull out the torsion bar with a M 8 bout of about 60 mm in length. You can use a washer and a piece of tube to easily remove the bar. The torsion bar is out...and the left suspension arm has free movement! Person #2 hold the suspension arm on the desired height. (for 4cm lowring that will be 21cm!). The arm will be rotated about 2 teeth!

Torsion bar adjustment - peugeot 206cc owners club

This is the method I used to lower my own Peugeot 306 GTi-6. I would like to point out that the torsion bars had previously been removed, cleaned & greased & refitted. The o/s torsion bar was seized into the trailing arm, which is very common if they've been in for a few years & needed a 10 tonne hydraulic puller to free it.

Torsion Bar Lowering FAQ - FAQ Forum - Peugeot 306 GTi-6 ...

No problem mate, to adjust the torsion bars is easy its just unsizing them is the problem, Ive just lowered willhotdogs 206 on saturday and the hole car took me a good 6hrs and atleast 4hrs was for the rear, and thats with all the tools, ramp, bunnars, pullers and 12yrs experance! my work would charge £50 + VAT
