Studies such as the RHS Plants for Bugs project are helping us understand how both native and non-native plants support garden wildlife. See a list of suitable plants for wildlife gardens (1MB pdf)
Grow a mix of trees and shrubs
Grow a range of trees, shrubs and climbers, or a mixed hedge to provide food and shelter.

Ideas on attracting wildlife to your garden; expert ... - RHS

A native hedge is a good place to start when creating a wildlife-friendly garden. Hawthorn supports many species of birds that use the hedges as nesting sites and feast upon the haws (fruits) in autumn. They offer cover to small mammals as wildlife corridors. Grow them: they thrive in wide

range of soil conditions in full sun or partial shade.

Garden design: wildlife-friendly garden plants / RHS Gardening

Bring your garden to life by bringing life to your garden. Encourage wildlife to enjoy your garden as a safe haven and see an eco-system thrive before your very eyes. Explore our vast range of options from bird houses, baths and feeders to observation equipment.

Wildlife - RHS Plants

The Wildlife Trusts and the RHS set up Wild About Gardens to celebrate wildlife gardening and to encourage people to use their gardens to take action to help support nature. Many of our common garden visitors – including hedgehogs, house sparrows and starlings – are increasingly under threat. But together we can make a difference.
