find out that "2X"  
stands for 2N4401 and  
the dot seems to mean  
"lead free". But I  
couldn't find the  
meaning of the  
perpendicular "L". I  
think it could be a  
"date code" but I'm not  
sure and I don't know  
either what its purpose  
is (e.g. does it affect  
the pinout?).

Resistor SMD Code.  
Because of the small size of SMD resistors, there is often not room for the traditional color band code to be printed on them. Therefore, new resistor SMD codes were developed. The most commonly seen codes are the three and four digit system and an
