System description:
The ORSCO spray system covers the entire oil lubrication range from slow to fast moving chains. It is, however, especially ideal for the lubrication of extreme fast moving chains or for critical applications such as found in the food & beverage industry, or for integrate assembly procedures.

AutoJet Electrostatic Specialty Systems

Chain Oiler System ensures precise chain lubrication using less oil than other systems. The system consists of an AutoJet Spray Controller, electrostatic single-point spray nozzles and a 16-liter (4.2-gallon) oil reservoir. Electrostatic spray technology is based on the scientific principle that “opposites attract.”
