Although investing carries risks, the right portfolio can help you reach your goals faster than saving alone. Let's say you want to purchase a home within the next eight years. If you just squirrel that money away in a savings account, even one of the better ones that pay over 1%, you're actually losing money on it!

When to Stop Saving and Start Investing

The BIG difference between "saving" and "investing" is a tiny thing called "liquidity". Savings are supposed to be investments that are highly liquid, they can be turned into cash on a short notice. They can (in a very not advisable case even BE cash, for instance under the matress) "investing" investments are usually different degrees of liquid.
