Chris Palmer. Jun 21, 2013. The archetypal scientist-artist, Leonardo da Vinci, implored his contemporaries to "study the science of art and the art of science.". Princeton University's scientists and engineers have taken the Renaissance master's plea to heart and produced a new set of beautiful, scientifically derived works of art. Princeton's 6th annual "Art of Science" exhibition elicited 170 submissions from 24 of the Ivy League schools' departments.

The Art and Science of Training presents the science for learning and development, but it also emphasizes that training success lies in knowing what to do when things don't go as planned. Discover how top facilitators always put learners first, even when faced with exceptions to the rule—the unwilling learner, the uninformed supervisor, the inappropriate delivery medium, or the unmanageable performance challenge.
