C# Programming Yellow Book, The "Bananas" Edition

I found The C# Programming Yellow Book excellent. My understanding of the C# language has been improved by the consolidation of many concepts I was having problems with. The book answered many of the questions that came about after reading other books on C# 4.6 and documentation provided by Visual Studio.

The C# Programming Yellow Book eBook: Miles, Rob: Amazon ...

The C# Programming Yellow Book eBook: Miles, Rob: Amazon ... and programming. In this book I'm going to give you a smattering of the C# programming language. If you have programmed before I'd be grateful if you'd still read the text. It is worth it just for the jokes and you may actually learn something. If you have not programmed before, do not worry. Programming is not rocket science it is, well ...

The C# Programming Yellow Book eBook: Miles, Rob: Amazon ...

The C# Programming Yellow Book eBook: Miles, Rob: Amazon ... I have done some programming, but not familiar with C#. This is a good read and quite humorous - I confess I am enjoying it, although it is probably written with a beginner in mind. The Kindle format is not ideal for a text book like this, as one really needs to keep referring back to the program examples while reading the text.

Amazon.co.uk:Customer reviews: The C# Programming Yellow Book

This is one of the most read and demanded book by the students of C programming. The reason being the emphasis that this book lay on the basics which help students in the better understanding of this subject. Most of the teachers in universities and experts in the field recommend students to have this book for their better learning.
