To Engineer Is Human : Henry Petroski : 9780679734161

Engineering is a human endeavor. Humans have engaged in engineering to meet their needs as long as they have had needs. We invent and innovate when we are confronted with problems, needs, and desires. Inventions exist and continue to be created to meet our needs for daily life, such as access to water, energy, transportation, and entertainment.

High School Engineering/To Engineer Is Human - Wikibooks ...

Engineering is inherently part of our human nature and a "very good" thing. Designers can become enamored or blinded by the successes of the past, and can lose sight of safety or even try to outdo others or themselves in an attempt to be

(DOC) To Engineer is Human | Tyler J Finn - Academia.edu

In To Engineer is Human, an erudite exposition of engineering failures, Henry Petroski explores the reasons designs and structures fail. He incorporates examples of everyday objects and basic designs as well as large complex design failures.
