Momentum = Trend strength . There are two ways of looking at momentum. The first one just looks at the overall trend strength. When the price is in a strong or healthy trend, traders say that the momentum is bullish or bearish (in a downtrend). When we come to the micro level later, we will see that momentum also exists when we just look at individual candlesticks. A long candlestick without wicks (shadows) usually is considered a high momentum candlestick. Below are three examples:
