Un Corbusier

Le Corbusier designed furniture, carpets and lamps to go with the building, all purely functional; the only decoration was a choice of interior colors that Le Corbusier gave to residents. The only mildly decorative features of the building were the ventilator shafts on the roof, which Le Corbusier made to look like the smokestacks of an ocean ...

Le Corbusier - Wikipedia

A lead architect of the UN Building, Le Corbusier, created a system of design based on the golden ratio The building, known as the UN Secretariat Building, was started in 1947 and completed in 1952. The architects for the building were Oscar Niemeyer of Brazil and and the Swiss/French architect Le Corbusier. On Corbusier, Wikipedia states:

UN Secretariat Building and the Golden Ratio in Architecture

Le Corbusier, byname of Charles-Édouard Jeanneret, (born October 6, 1887, La Chaux-de-Fonds, Switzerland—died August 27, 1965, Cap Martin, France), internationally influential Swiss architect and city planner, whose designs combine the functionalism of the modern movement with a bold, sculptural expressionism.
