### Urban Design Guidelines | Planning Department

Urban design is the art of designing cities, i.e. architecture taken to the urban scale, the site, the neighborhood or an entire city. It is age old, but as a specialized discipline in the US it was only institutionalized when Harvard started to offer Urban Design as a degree in 1960, after having introduced regional planning as a separate degree as early as 1923.

### What are Urban Design and Master Planning? | Smart Cities Dive

The urban design component of a plan takes a look at many different parts of the physical form of the city, ranging from individual buildings to layouts of entire neighborhoods and towns.

### Modern House Plans with Photos - Modern House Designs

Urban design is the process of designing and shaping the physical features of cities, towns, and villages and planning for the provision of municipal services to residents and visitors. Although it deals with issues of a larger scale than architecture, it cannot be understood as a wholly separated field of research and design, since the quality of one depends on the quality of the other.

### Urban design - Wikipedia

The plan of the city of Washington was designed in 1791 by Pierre L'Enfant, and mapped the following year; a design which remains largely in place. For nearly a century, the realization of physical changes to the original plan were gradual until the second important benchmark in the development of Washington's urban plan: the McMillan ...

The Urban Design Element is concerned both with development and with preservation. It is a concerted effort to recognize the positive attributes of the city, to enhance and conserve those attributes, and to improve the living environment where it is less than satisfactory. The Plan is a definition of quality, a definition based upon human needs.
